

# LEAVE YOUR OLD FLAME BEHIND.

- Up to **\$350** to recycle your old wood stove or insert
- **\$1,500** discount towards replacing your old wood stove or insert
- **FREE\*** heating replacements for low-income households

Air quality in most of Tacoma and much of Pierce County does not meet federal standards for healthy air during colder fall and winter months, when many households rely on wood-burning devices for heating. In addition to enhanced enforcement of burn bans in the Smoke Reduction Zone to help reduce pollution, the Puget Sound Clean Air Agency is helping Zone residents recycle or replace their old, polluting wood-burning devices.

## BUY-BACK REWARD

- Bring your old, but working, wood stove or fireplace insert to a drop-off location, and receive a **\$350 reward**.
- Schedule us to come and get your working wood stove or insert and receive a **\$200 reward**.
- A working indoor trash burner or barrel stove is worth a **\$100 reward**, either at a drop-off location or with in-home removal.

## REPLACEMENT DISCOUNT

- Replace your old wood stove or fireplace insert with an approved cleaner heating device and receive a **\$1,500 discount towards the installation of the new device**.
- Replacement options include electric heat pumps; natural gas or propane furnaces; and natural gas, propane and pellet stoves.

## LOW INCOME?

**You may be eligible for a FREE heating replacement.**

Residents meeting low-income qualifications and having an eligible wood stove or fireplace insert can receive **up to the full cost\*** of a heating replacement. Replacement options include electric heat pumps; natural gas or propane furnaces; and natural gas, propane, pellet and certified wood stoves.

\* Some limitations and restrictions apply.
